ABSTRAK

TRI RAHAYU NINGSIH. Hubungan Antara Layanan Informasi Dengan Penyesuaian Diri Siswa Kelas X SMK Negeri I Pajangan Tahun ajaran 2016/2017

Penelitian ini bertujuan untuk mengetahui berapa besar hubungan antara persepsi terhadap layanan informasi dengan penyesuaian diri siswa. Hipotesis yang diajukan dalam penelitian ini terdapat hubungan positif yang sangat signifikan antara penyesuaian diri dengan persepsi terhadap layanan informasi, semakin tinggi penyesuaian diri maka persepsi terhadap layanan informasi semakin tinggi pula, sebaliknya semakin rendah penyesuaian diri, maka semakin rendah persepsi terhadap layanan informasi.

Penelitian ini menggunakan pendekatan kuantitatif. Subyek yang dilibatkan dalam penelitian ini berjumlah 72 siswa. Siswa diambil menggunakan teknik *Cluster Random Sampling*. Alat pengumpul data menggunakan skala penyesuaian diri dan skala persepsi terhadap layanan informasi. Analisis data penelitian ini menggunakan teknik korelasi *Product Moment* dari *Pearson* dengan bantuan program *SPSS 16.00 for Windows*.

Hasil penelitian ini menunjukkan adanya hubungan positif yang sangat signifikan antara penyesuaian diri dengan persepsi terhadap layanan informasi. Besar koefisien korelasi sebesar 0.625 dengan $p = 0.000$ ($p < 0.05$). Hal ini berarti menunjukkan terdapat hubungan positif yang sangat signifikan antara penyesuaian diri dengan persepsi terhadap layanan informasi. Dengan demikian hipotesis yang diajukan dalam penelitian ini diterima

BAB I

PENDAHULUAN

A. Latar Belakang Masalah

Sekolah sebagai pusat pendidikan formal memegang peranan penting bagi perkembangan siswa setelah pendidikan di lingkungan keluarga dan lingkungan masyarakat. Oleh sebab itu sekolah mempunyai tanggung jawab dalam pencapaian tujuan pendidikan nasional. Dalam Undang-Undang Republik Indonesia Nomor 14 Pasal 6 Tahun 2005, menyebutkan bahwa tujuan pendidikan nasional, yaitu berkembangnya potensi siswa agar menjadi manusia yang beriman dan bertakwa kepada Tuhan Yang Maha Esa, berakhlak mulia, sehat, berilmu, cakap, kreatif, mandiri, serta menjadi warga negara yang demokratis dan bertanggung jawab.¹

Proses pendidikan di sekolah memerlukan peranan penting pendidik yaitu membimbing dan membina siswa agar mampu menghadapi tantangan masa depan, khususnya di Sekolah Menengah Atas atau Sekolah Menengah Kejuruan. Sekolah memiliki tanggung jawab untuk mendidik dan menyiapkan siswa agar berhasil menyesuaikan diri di sekolah maupun di lingkungan masyarakat. Dalam mewujudkan misinya, sekolah perlu menyelenggarakan kegiatan pendidikan dalam arti luas. Sekolah harus menciptakan suasana pengajaran dan suasana lingkungan sekolah yang menyejukkan, bersemangat,

¹Undang-Undang Republik Indonesia Nomor 14 Pasal 6 Tahun 2005

dan nyaman, sehingga menekan munculnya permasalahan-permasalahan yang tidak diinginkan.

Permasalahan yang dialami siswa di sekolah, merupakan permasalahan yang umum terjadi pada fase remaja. Pada fase ini siswa mengalami perubahan yang besar yang dimulai sejak datangnya fase masa puber. Perubahan sikap dan perilaku yang terjadi akibat dari perubahan fase puber. Perubahan yang terjadi itu seperti bosan, ingin menyendiri, emosi yang tinggi, hilangnya rasa percaya diri, dan tidak dapat menyesuaikan diri di lingkungan baru.

Sumber permasalahan pada fase remaja, berpengaruh pula pada proses penyesuaian di lingkungan baru yaitu sekolah. Beberapa permasalahan dalam kehidupan sehari-hari dalam penyesuaian diri di sekolah, siswa akan mengalami permasalahan dalam berbagai aspek, misalnya dalam aspek pribadi siswa akan susah bergaul, menentang otoritas, minder, tertutup, cepat marah, dan gelisah. Pada aspek sosial siswa akan susah mencari teman baru, otoriter terhadap teman-temannya dan dikucilkan oleh masyarakat sekitar. Sedangkan pada aspek belajar siswa akan mengalami prestasi belajar yang turun dan kesulitan membagi waktu belajar.²

Permasalahan yang dihadapi siswa tidak boleh dibiarkan begitu saja, sekolah harus menyediakan pelayanan yang efektif untuk membantu siswa mengatasi masalah yang berkaitan dengan penyesuaian diri di lingkungan baru. Dalam hal ini layanan informasi dirasa perlu untuk dilakukan.

² Supriyo, *Studi Kasus Bimbingan dan Konseling*, (Semarang: Nieuw Setapak, 2008), hlm. 94.

Prayitno dan Amti,³ menjelaskan bahwa tujuan layanan informasi dalam dunia pendidikan adalah membekali siswa dengan berbagai pengetahuan tentang lingkungan yang diperlukan untuk memecahkan masalah yang dihadapi berkenaan dengan lingkungan sekitar, pendidikan, jabatan maupun sosial budaya. Sedangkan guru bimbingan dan konseling berperan sebagai pelaksana pelayanan bimbingan dan konseling terhadap siswa.

Apabila dilihat dari fungsi dan tugas guru bimbingan dan konseling, idealnya guru bimbingan dan konseling serta layanan informasi diharapkan sangat mampu memecahkan permasalahan yang dihadapi siswa di lingkungan baru dengan melakukan layanan informasi yang sebaik mungkin. Pemberian layanan informasi semestinya dilakukan sejak siswa memasuki sekolah. Hal tersebut dikarenakan pada masa itu siswa masih cenderung labil sehingga mudah untuk dipengaruhi oleh siapapun. Pada masa ini juga terjadi transisi dari masa Sekolah Pertama ke masa Sekolah Lanjutan Tingkat Atas. Layanan informasi yang diberikan akan mempengaruhi penyesuaian diri siswa. Oleh sebab itu pemberian layanan informasi yang tepat dan memadai akan memberikan pengaruh yang baik terhadap siswa di lingkungan sekolah. Dalam hal ini siswa akan memahami beberapa aspek mengenai diri pribadinya sehingga akan berdampak baik terhadap sikap penyesuaian dirinya. Sebaliknya apabila pemberian layanan informasi yang mereka butuhkan kurang tepat dan kurang memadai, maka akan berdampak kepada pemahaman siswa yang kurang. Hal tersebut akan mengakibatkan siswa sulit

³ Prayitno dan Emma Amti, *Dasar-dasar Bimbingan dan Konseling*, (Jakarta: Rineka Cipta, 2004), hlm. 261.

menentukan langkah dan arah hidupnya ke depan, sehingga akan berdampak sulitnya menyesuaikan diri di lingkungan tempat siswa berada.

Layanan informasi merupakan layanan bimbingan dan konseling yang memberikan pengaruh besar kepada siswa dalam menerima dan memahami informasi, seperti informasi pendidikan dan informasi jabatan yang dapat dipergunakan sebagai bahan pertimbangan dan pengambilan keputusan dalam kehidupan sehari-hari sebagai pelajar, anggota keluarga dan masyarakat.⁴

Setiap siswa dalam menyerap informasi yang diberikan oleh guru BK akan mempunyai tanggapan yang berbeda-beda, ada yang paham, ada yang setengah paham dan ada yang kurang paham. Dari tanggapan tersebut akan menimbulkan reaksi siswa dalam menyesuaikan diri di lingkungan baru, siswa dapat menyesuaikan diri dengan baik dan siswa tidak mampu menyesuaikan diri atau gagal menyesuaikan diri.

Hasil penelitian dari Budi Purwanto,⁵ menunjukkan bahwa siswa yang tidak mampu menyesuaikan diri akan mengalami kegagalan dalam mencapai keberhasilan belajar, ini disebabkan masalah penyesuaian diri dimana siswa tidak mampu menangani berbagai tuntutan sekolah dan mengalami berbagai masalah penyesuaian sehingga mereka gagal menyelesaikan studi mereka. Hasilnya menunjukkan bahwa kemampuan siswa menyesuaikan diri di sekolah pada tahun pertama berkaitan dengan kemampuan siswa dalam melakukan penyesuaian akademik, sosial, dan kurangnya informasi.

⁴ Dewa Ketut Sukardi, *Pengantar Pelaksanaan Program Bimbingan dan Konseling di Sekolah*, (Jakarta: Rineka Cipta, 2008), hlm. 61.

⁵Budi Purwanto, *Hubungan Antara Penyesuaian Diri danKeseharian PadaMahasiswa Baru Perguruan Tinggi Swasta di Yogyakarta*, (Yogyakarta: Fakultas Psikologi UGM, 2015), hlm. 10.

Fenomena ketidakmampuan penyesuaian diri di lingkungan baru adalah kurangnya informasi. Maka dari itu, informasi yang cukup dan proposional akan sangat membantu individu dalam menyesuaikan diri di lingkungan baru. Informasi yang diberikan oleh guru BK biasanya berkaitan dengan lingkungan sekolah, ekstra dan intrakurikuler, jurusan, tata tertib, pergaulan, motivasi belajar, dan sopan santun.

Ketajaman persepsi tergantung pada kualitas kemampuan siswa dalam melakukan pemahaman dan penyerapan informasi yang diberikan guru bimbingan dan konseling. Persepsi siswa yang positif terhadap layanan informasi yang diberikan guru bimbingan dan konseling diharapkan dapat meningkatkan penyesuaian diri siswa. Sebaliknya persepsi yang negatif akan mempengaruhi sikap siswa dalam penyesuaian diri di lingkungan baru.

Dari hasil observasi dan wawancara dengan beberapa siswa kelas X SMK Negeri 1 Pajangan mengungkapkan bahwa mereka yang masih kesulitan dalam menyesuaikan diri dengan lingkungan baru, mereka masih kesulitan dengan tata letak lingkungan barunya, dan sulit mengembangkan bakat, minat serta potensi yang mereka miliki. Adanya kesulitan-kesulitan tersebut dikarenakan pihak sekolah belum optimal dalam memberikan layanan informasi yang tepat terhadap siswa.⁶

Dalam penelitian ini, peneliti melakukan penelitian di SMK Negeri 1 Pajangan karena ingin mengetahui bagaimana layanan informasi yang

⁶ Wawancara dengan AN, tanggal 27 Oktober pukul 10.00 WIB.

diberikan guru bimbingan konseling sebagai upaya membentuk penyesuaian yang baik di lingkungan sekolah.

Berdasarkan uraian di atas, maka peneliti tertarik untuk meneliti permasalahan dengan judul “Hubungan Antara Persepsi Terhadap Layanan Informasi dengan Penyesuaian Diri Pada Siswa Kelas X SMK Negeri 1 Pajangan Tahun Ajaran 2016/2017.”

B. Identifikasi Masalah

Berdasarkan latar belakang masalah, maka dapat diidentifikasi masalah sebagai berikut :

1. Persepsi terhadap guru Bimbingan dan Konseling dalam memberikan layanan informasi untuk penyesuaian diri siswa.
2. Upaya guru Bimbingan dan Konseling untuk meningkatkan penyesuaian diri dengan lingkungan sekolah.
3. Faktor-faktor pemberian layanan informasi dalam rangka meningkatkan penyesuaian diri siswa.

C. Rumusan Masalah

Berdasarkan uraian latar belakang di atas, maka rumusan masalah yang diangkat dalam penelitian ini yaitu bagaimana hubungan persepsi terhadap layanan informasi dengan penyesuaian diri pada siswa kelas X SMK Negeri 1 Pajangan Tahun Ajaran 2016/2017 ?

D. Tujuan Penelitian

Berdasarkan rumusan masalah di atas, maka penelitian ini bertujuan untuk mengetahui sekaligus mendeskripsikan hubungan persepsi terhadap layanan informasi dengan penyesuaian diri pada siswa kelas X SMK Negeri 1 Pajangan Tahun Ajaran 2016/2017.

E. Manfaat Penelitian

Dengan melakukan penelitian terhadap persepsi dalam layanan informasi dengan penyesuaian diri pada siswa, manfaat yang diharapkan peneliti adalah :

1. Manfaat teoritis

Penelitian ini diharapkan akan menambah khasanah keilmuan khususnya pada bidang bimbingan dan konseling mengenai hubungan antara persepsi terhadap layanan informasi dengan penyesuaian diri siswa.

2. Manfaat praktis

Hasil penelitian ini dapat dijadikan sebagai referensi dan acuan bagi guru Bimbingan dan Konseling serta pihak sekolah untuk meningkatkan persepsi terhadap layanan informasi dengan penyesuaian diri siswa.

F. Kajian Pustaka

Berdasarkan penelusuran peneliti, ada beberapa penelitian yang telah dilakukan sebelumnya yang terkait dengan penelitian ini, akan tetapi peneliti belum pernah menemukan penelitian tentang hubungan antara persepsi terhadap layanan informasi dengan penyesuaian diri pada siswa kelas X SMK Negeri 1 Pajangan. Namun ada beberapa penelitian yang hampir serupa dengan penelitian ini. Beberapa penelitian tersebut antara lain :

1. Skripsi dengan judul “Hubungan antara dukungan sosial dengan penyesuaian diri remaja di Panti Asuhan Al Bisri Semarang” diteliti oleh Ayu Febriasari. Penelitiannya termasuk penelitian deskripsi kuantitatif, dengan subjek remaja Panti Asuhan Al Bisri Semarang. Hasil penelitian menunjukkan bahwa nilai korelasi $r_{xy} = 0,566$, $p < 0.01$, yang menunjukkan bahwa hipotesis diterima. Artinya terdapat hubungan yang positif dan signifikan antara dukungan sosial dengan penyesuaian diri remaja di Panti asuhan Al Bisri Semarang.⁷
2. Jurnal bimbingan dan konseling dengan judul “Hubungan Antara Persepsi Terhadap Dukungan Sosial Teman Sebaya dan Konsep Diri Dengan Penyesuaian Diri Di Sekolah Pada Siswa Kelas Unggulan” ditulis oleh Lailatul Rokhmatika dan Eko Darminto. Penelitian ini termasuk penelitian korelasi. Subjek yang diteliti adalah siswa kelas unggulan SMP N I Kalitengah Lamongan, dengan populasi 50 siswa. Pengambilan data

⁷ Ayu Febriasari, *Hubungan antara dukungan sosial dengan penyesuaian diri remaja di Panti Asuhan Al Bisri Semarang*, skripsi tidak diterbitkan, (Yogyakarta: Universitas Islam Negeri Sunan Kalijaga, 2007)

menggunakan skala. Metode yang digunakan untuk analisis data yaitu Chi-square dan uji koefisiensi kontingensi. Hasil yang diperoleh yaitu ada hubungan yang signifikan dan positif antara hubungan konsep diri dengan penyesuaian diri dengan nilai $0,001 < 0,05$ dan hubungan hubungan dukungan dengan sebaya dengan konsep diri dengan nilai $0,011 < 0,05$.⁸

3. Skripsi dengan judul “Hubungan antara layanan informasi karir dengan kematangan karir pada siswa kelas XII di SMK Negeri 6 Yogya” ditulis oleh Muslihatun, hasil penelitian menunjukkan bahwa ada pengaruh positif yang sangat signifikan antara layanan informasi karir terhadap kematangan karir.⁹

“Hubungan Antara Persepsi Terhadap Layanan Informasi dengan Penyesuaian Diri Pada Siswa Kelas X SMK Negeri I Pajangan Tahun Ajaran 2016/2017” merupakan judul yang dipilih peneliti untuk dikaji lebih lanjut. Penelitian ini jelas berbeda dengan penelitian-penelitian sebelumnya yang membahas mengenai penyesuaian diri. Letak perbedaan penelitian ini dengan penelitian yang sebelumnya yaitu penelitian sebelumnya banyak yang membahas tentang penyesuaian diri dengan dukungan sosial, namun belum ada satupun yang menghubungkannya dengan pemahaman persepsi terhadap layanan informasi seperti dalam penelitian ini.

BAB V

KESIMPULAN DAN PENUTUP

A. Kesimpulan

Berdasarkan hasil penelitian dan pembahasan di atas, maka dapat disimpulkan bahwa nilai korelasi *Product Moment* dari *Pearson* antara hubungan tentang persepsi terhadap layanan informasi (variabel X) dengan penyesuaian diri (variabel Y) dapat diketahui koefisien korelasi sebesar 0.625 dengan nilai $p = 0.000$ ($p < 0.05$) menunjukkan hubungan yang sangat signifikan. Angka ini berada pada interval 0.60-0.799 yang menunjukkan kategori kuat. Dengan demikian terdapat hubungan positif yang sangat signifikan antara penyesuaian diri siswa dengan persepsi terhadap layanan informasi. Hal tersebut berarti bahwa semakin tinggi penyesuaian diri maka persepsi terhadap layanan informasi akan semakin tinggi atau menerima. Sebaliknya jika semakin tinggi persepsi terhadap layanan informasi maka penyesuaian diri siswa akan semakin tinggi pula.

B. Saran

Berdasarkan hasil penelitian, pembahasan dan kesimpulan yang telah diuraikan sebelumnya, maka saran-saran yang peneliti ajukan adalah sebagai berikut:

1. Bagi SMK Negeri 1 Pajangan

Kepada pihak sekolah kiranya perlu menambah materi tentang karir masa depan dan cara bergaul dengan lingkungan sekitar lebih banyak lagi dan konsisten agar siswa tetap memiliki penyesuaian diri yang baik. Dalam memberikan layanan informasi kepada siswa disarankan untuk melakukan kolaborasi dengan berbagai pihak terkait. Pihak tersebut diantaranya adalah orang yang ahli dalam bidang yang berkompeten terhadap karir siswa. Selain itu diharapkan materi yang disampaikan dalam pelajaran Bimbingan dan Konseling lebih ditingkatkan lagi dan lebih bervariasi agar siswa tidak bosan.

2. Bagi Guru Bimbingan dan Konseling

Bagi guru Bimbingan dan Konseling hendaknya mencoba melakukan terobosan yang kreatif dan inovatif dalam menyampaikan materi agar tidak membosankan bagi siswa sehingga mereka mau mendengar, melihat dan memahami materi yang diberikan. Guru Bimbingan dan Konseling juga harus mampu mengaplikasikan materi yang disampaikan dalam berbagai layanan Bimbingan dan Konseling tidak hanya dengan satu layanan dan media saja. Bisa dengan memberikan layanan bimbingan klasikal menggunakan media *Power Point* dengan tampilan menarik, lalu layanan informasi menggunakan poster, leaflet dan papan bimbingan.

3. Bagi Siswa

Bagi siswa disarankan untuk lebih peduli dan menghargai berbagai layanan Bimbingan dan Konseling yang diberikan oleh guru Bimbingan dan Konseling mengenai berbagai materi yang diberikan. Karena hal tersebut sangat bermanfaat untuk masa depan. Jangan sampai melakukan penyesuaian diri yang salah karena akan menghancurkan diri sendiri dan masa depan yang masih panjang. Karena penyesuaian diri yang baik akan menghantarkan pada kesuksesan masa depan.

4. Bagi Peneliti Selanjutnya

Bagi peneliti selanjutnya, terutama yang tertarik dengan tema yang sama dengan penelitian ini, diharapkan untuk mengkaji masalah ini dengan jangkauan yang lebih luas dan menambah atau mengembangkan variabel yang belum terungkap dalam penelitian ini. Penulis menyadari bahwa instrumen dalam penelitian ini dirasa masih kurang bernuansa Islami, akan lebih baik jika penelitian selanjutnya bisa menyempurnakan dan memperbaiki, dengan menambahkan aspek keIslmannya pada instrumen penelitian. Dalam penelitian ini juga masih kurang sempurna dalam penyusunan instrument variabel X, untuk itu diharapkan kelak bagi para peneliti menyempurnakan dalam penyusunan instrumen persepsi terhadap layanan informasi yang tidak dibahas dalam penelitian ini.

Assalamu'alaikum Wr.Wb.

Salam sejahtera bagi kita semua, semoga selalu dalam lindungan-Nya. Amin. Saya sebagai mahasiswi UIN Sunan Kalijaga Yogyakarta mohon kesediaan partisipasi teman-teman mengisi skala yang telah saya sediakan. Skala ini digunakan sebagai bahan penyusunan tugas akhir saya.

Demikian saya sampaikan, atas perhatian dan kerjasamanya, saya ucapkan terimakasih. Semoga Allah SWT memberikan yang terbaik bagi kita semua. Amin
Wassalamu'alaikum Wr.Wb

Hormat saya,

Tri Rahayu Ningsih

Petunjuk Pengisian

1. Isilah identitas dengan lengkap
2. Bacalah dengan cermat setiap pernyataan yang ada
3. Pilihlah salah satu jawaban yang paling sesuai dengan keadaan teman-teman dengan member tanda centang (✓) di kolom yang telah disediakan
4. Keterangan masing-masing pilihan jawaban adalah :
SS : **Sangat Setuju**
S : **Setuju**
TS : **Tidak Setuju**
STS : **Sangat Tidak Setuju**
5. Semua jawaban teman-teman adalah benar, asalkan menjawab sesuai dengan kondisi yang ada pada saat ini. Oleh karena itu, kejujuran sangat diperlukan dalam pengisian angket ini.
6. Mohon di isi dengan teliti dan tidak ada yang terlewat!
7. Selamat mengerjakan!

☺ **Good Luck** ☺
