## PREFACE

This seminar is 2<sup>nd</sup> International Seminar of Teaching Excellence & Innovation. This seminar is held on February, 25<sup>th</sup> 2014 at Faculty of Education, University of Malaya, Malaysia. The theme of seminar is “Education Transformation Beyond Excellence”. The main objective of this seminar is to provide exposure to the latest educational developments toward quality of education, identify current issues to achieve quality of education, exposure related to new innovations in research and publications in order to achieve quality of education and establishing academic networks between regional education institutions of South-East Asia.

The seminar is organized into two major session, the main session and parallel sessions. The main session is filled with three expert speakers, from Malaysia (Prof. Dr. Saedah Siraj, UM), as well as from Indonesia (Prof. Dr. Sutrisno from UIN Sunan Kalijaga Yogyakarta).

The committee received about 11 paper which are divided into two parallel sessions in accordance with sub-themes. This is done in such way so that graduate students have opportunity to share their information about research in their field in the international seminar.
