## FINAL PROJECT STATEMENT

### FINAL PROJECT STATEMENT

Assalamu'alaikum Wr. Wb.

I am the undersigned:

Name : Aida Hilya Salsabila  
NIM : 20101040082  
Study Program : Library Science  
Faculty : Adab and Cultural Science

Stating that:

1. The thesis entitled "The Influence Of Interior Design On Students' Interest In Visiting The Beyt Ali Madrasah Tsanawiyah Ali Maksum Library Yogyakarta is my original work submitted to fulfill one of the requirements to obtain an undergraduated degree (S1) in the Library Science Study Program, Faculty of Adab and Cultural Sciences, UIN Sunan Kalijaga, Yogyakarta.
2. I have listed all sources used in writing this thesis following applicable regulation. If, in the future, it is proven that this work is not my original work or the result of plagiarism from the work of others then I am willing to accept the applicable sanctions.

Thus, this letter is made and used as appropriate.

Wassalamu'alaikum Wr.Wb.

Yogyakarta, 10 December 2024

The Writer

Aida Hilya Salsabila

## NOTA DINAS

**Dr. Anis Masruri, S.Ag., S.S., M.Si.  
Dosen Program Studi Ilmu Perpustakaan Fakultas Adab dan Ilmu Budaya  
UIN Sunan Kalijaga Yogyakarta**

### NOTA DINAS

Hal : Skripsi  
Lamp : 1 (Satu) eksemplar

Kepada Yth:  
Dekan Fakultas Adab dan Ilmu Budaya  
UIN Sunan Kalijaga Yogyakarta

Assalamu'alaikum Wr. Wb.

Setelah membaca, mengoreksi, dan menyarankan perbaikan seperlunya, maka saya selaku pembimbing berpendapat bahwa skripsi saudara:

Nama : Aida Hilya Salsabila  
NIM : 20101040082  
Program Studi : Ilmu Perpustakaan  
Fakultas : Adab dan Ilmu Budaya  
Judul : The Influence of Interior Design on Students' Interest in Visiting The Beyt Ali Madrasah Tsanawiyah Ali Maksum Library Yogyakarta

Dapat diajukan sebagai salah satu syarat untuk memperoleh gelar strata satu pada Program Studi Ilmu Perpustakaan Fakultas Adab dan Ilmu Budaya UIN Sunan Kalijaga Yogyakarta. Berdasarkan hal tersebut, saya berharap agar skripsi saudara di atas dapat segera disetujui dan disidangkan dalam munaqosyah.

Demikian, atas perhatiannya diucapkan terima kasih.

Wassalamu'alaikum Wr. Wb.

Yogyakarta, 10 Desember 2024

Dr. Anis Masruri, S.Ag., S.S., M.Si.  
NIP: 19710907 199803 1 003

## **MOTTO**

“Perkecillah dirimu, maka kau akan tumbuh lebih besar dari dunia. Tiadakan dirimu, maka jati dirimu akan terungkap tanpa kata-kata.”

(Jalauddin Rumi)

## **DEDICATION**

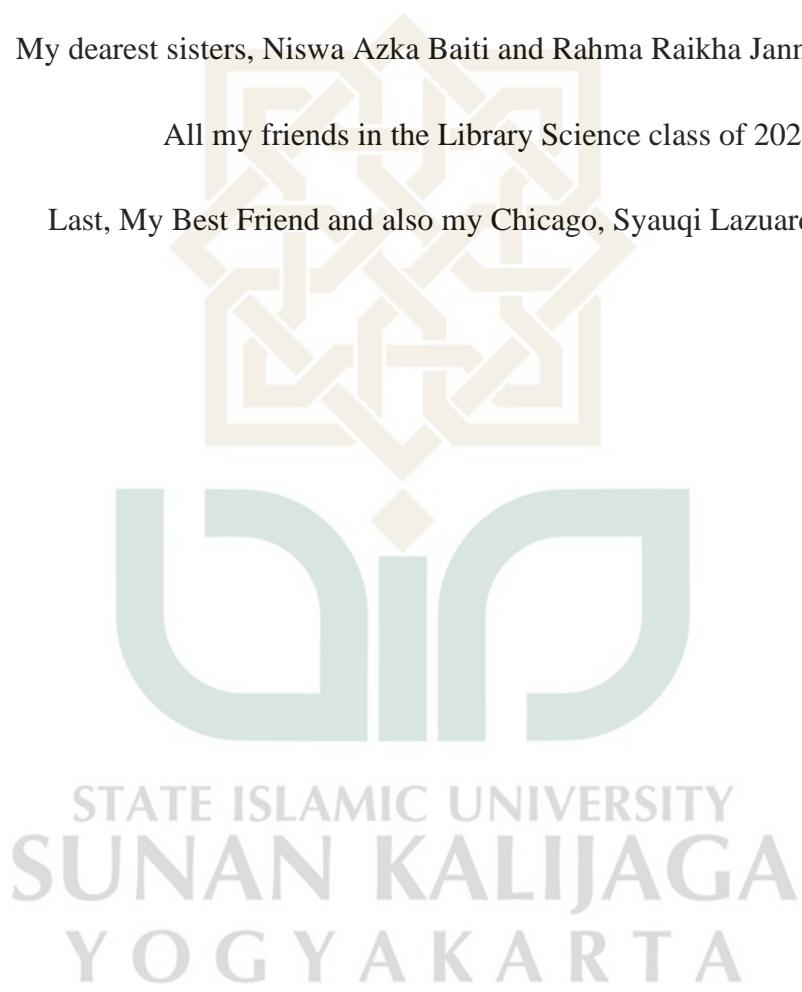

The researcher delicates this graduating paper to:

My beloved parents, Mr. Yurwiyanto Nugroho and Mrs. Nur  
Widyantini

My dearest sisters, Niswa Azka Baiti and Rahma Raikha Jannata

All my friends in the Library Science class of 2020

Last, My Best Friend and also my Chicago, Syauqi Lazuardy Ahmad

## ABSTRACT

### THE INFLUENCE OF INTERIOR DESIGN ON STUDENTS' INTEREST IN VISITING THE BEYT ALI MADRASAH TSANAWIYAH ALI MAKSUM LIBRARY YOGYAKARTA

Aida Hilya Salsabila

20101040082

This study aims to determine the library users' perspectives on interior design and student interest, to determine the effect of interior design on student interest, and to determine how much influence interior design has on student interest in the Beyt Ali Library of Madrasah Tsanawiyah Ali Maksum Yogyakarta. The subjects in this study were students of Madrasah Tsanawiyah Ali Maksum Yogyakarta, with 90 respondents. While objects in this study are interior design and student interest. Data collection includes questionnaires, observations, interviews, and documentation. Data analysis began with the classical assumption test, mean and grand mean, product-moment correlation, and simple linear regression. The results of this study state that students' perceptions of interior design are good, with an average of 2.92, and the level of interest in visiting students is good, with an average of 3.14. The coefficient table results show a significance value of less than 5%, and interior design affects student interest in visiting by 62.8%, where Rsquare is 0.628. Based on these results, it can be decided that  $H_a$  is accepted and  $H_0$  is rejected so the interior design of the Beyt Ali Library of Madrasah Tsanawiyah Ali Maksum Yogyakarta affects student visiting interest.

**Keywords:** interior design, visiting interests, library.

## PREFACE

*Assalamualaikum Wr. Wb.*

All praise be to Allah SWT, who has bestowed the gift of His grace so that researchers can complete the thesis smoothly and on time as one of the requirements for obtaining a bachelor's degree in Library Science, Faculty of Adab and Library Science, Faculty of Adab and Cultural Sciences, State Islamic University Sunan Kalijaga Yogyakarta. Shalawat may continuously be poured out to our lord, the Prophet Muhammad SAW, and his family and followers.

The writing of the thesis with the title The Influence Of Interior Design On Students' Interest In Visiting The Beyt Ali Madrasah Tsanawiyah Ali Maksum Library Yogyakarta. After going through a long time, the researcher can complete the thesis with the help of several parties. Special thanks to the author's parents, Mr Yurwiyanto Nugroho and Mrs Nur Widyantini, and all family members for their endless support, trust, and prayers.

Direction and assistance from various parties, the researcher would like to thank Prof. Noorhaidi, M.A., M.Phil., Ph.D. as Rector of UIN Sunan Kalijaga Yogyakarta and the Vice-Rectors, II and III of UIN Sunan Kalijaga Yogyakarta. I also recognize Prof. Dr. Nurdin, S.Ag., S.S., M.A. as Dekan of the Faculty Adab and Cultural Science, Vice dekan I, Vice dekan II, and Vice dekan III Faculty Adab and Cultural Science. And for Mr. Muhammad Ainul Yaqin, S.Pd. M.Ed., Head of The Library Science Studies Program.

Furthermore, my sincere appreciation goes to Mr Dr Anis Masruri, S.Ag.,

S.S., M.Si., whose dedication as a tutoring lecturer has enriched this thesis with critical insights and scholarly rigour. His mentorship has been pivotal in shaping the research and ensuring its academic integrity. Mr. Drs. Djazim Rohmadi, M.Si., and Mrs. Khairunnisa Etika Sari, M.IP., are the examiners who have provided input and motivation. All lecturers and staff of the Faculty of Adab and Cultural Sciences of UIN Sunan Kalijaga Yogyakarta who have helped, guided, and motivated the author. I am deeply grateful to all teachers, librarians, and staff of MTS Ali Maksum Yogyakarta, who have provided a lot of information and data related to the completion of this thesis. Their cooperation has been instrumental in realizing the objectives of this study

In addition to institutional support, I extend our heartfelt gratitude to my beloved parents, who have given prayers and support both morally and materially. Equally deserving of our appreciation are my friends Juwita, Eva, Shofi, Alin, Tiara, and Safi, who helped complete this thesis and gave the author much advice, criticism, and enthusiasm. Lastly, I want to give a final thanks to myself because I have struggled so far to complete the thesis as much as possible. Hopefully, this thesis can help increase knowledge and benefit readers or anyone in need.

*Wassalamu'alaikum Wr. Wb.*

## CHAPTER I

### INTRODUCTION

#### 1.1 Background of the problem

Education is important because it is the root of civilization and the benchmark for the progress of a nation. Many ways can be done to improve a nation's education quality. One of the many ways is to build a library, as explained in Library Law Number 43 of 2007, which states that libraries function as a vehicle for education, research, preservation, information, and recreation to increase the intelligence and empowerment of the nation. From this explanation, we know that libraries have a critical role in improving a nation's education quality. Basuki (2014) explained the meaning of a library as a room or building used to store books and other publications that are usually stored according to a specific arrangement used by readers, not for sale. As a source of information, libraries should meet users' information needs without exception, regardless of ethnicity, race, and class. The obligation to meet the needs of users is comprehensive.

The problem that has occurred in recent years is that many people view libraries as synonymous with boring places. Some even consider the library just a place for books guarded by officers with thick glasses (Suwarno, 2016). The lousy stigma against libraries certainly affects visitors' interest, especially in education at various levels, such as schools. According to Yusuf (2007, p. 2), the school library is interpreted as a library in the school environment. The school library is held to meet the community's information needs in the school environment concerned. The lousy stigma about libraries certainly cannot be left unattended because it will have a bad

impact, especially for students. Students will lose interest in visiting the school library. In fact, school libraries have a big role in improving the quality of education and teaching (Darmono & Putra, 2004). Therefore, a way to overcome this is to create a specific innovation without losing the identity and purpose of the library.

One of the innovations that can attract the interest of users is interior design. Interior design is planning and arranging rooms in a building that function to meet the need for shelter facilities and activities for its residents (Ching & Binggeli, 2018). Interior design is one of the important elements of a school library building. As explained by Lasa (2005, p. 147) that a well-organized school library room will provide comfort, security, and satisfaction for officers and users of library services. In principle, interior design is used to create a room that is functional, practical, and also aesthetic or beautiful (Brown, t.t., p. 1). A good, functional, practical, and aesthetically pleasing room arrangement will present a comfortable atmosphere for users, especially students. As explained by Inabah (2020, p. 12) two things that affect users' interest in visiting the library are comfortable library rooms and adequate facilities. Moreover Achmad (2011, p. 10) stated that the attention to interior design will have a positive impact, namely the increased interest in visiting users and satisfaction with services and the library environment. If the school library does not try to create comfortable and organized room conditions through interior design, students will be even more reluctant to visit the library.

The school library must be aesthetically appealing and functional to attract users to visit the library (Abouelela, 2022, p. 2). From some of the explanations above,

we know that school libraries need to make innovations, such as paying attention to interior design in order to increase student interest in visiting the library. One type of school library in Yogyakarta is the Beyt Ali Library. This library was established under the Ali Maksum Krapyak Yogyakarta Foundation. An educational institution is equivalent to a junior high school. The Beyt Ali library building is in the same scope as Madrasah Tsanawiyah Ali Maksum on Jl. KH. Ali Maksum Panggungharjo, Sewon District, Bantul Regency. In 2021, the Beyt Ali MTs Ali Maksum Library underwent a merger of space with a science laboratory so that the Library space was getting wider. In addition, there have also been several renovations to the library room to make it more comfortable and beautiful. The following is the number of visits to the Beyt Ali Library before and after the renovation, namely in the period 2018-2023:

**Table 1. 1 Number of Library Visits in 2018-2023**

No	Year	Number Of Visitors
1	2018	874
2	2019	759
3	2020	342
4	2021	1.016
5	2022	1.320
6	2023	1.904
Average		1.035

Source: Beyt Ali's library data

From the data above, we can see that there has been a fluctuation in the number of visits. The cause of this is the pandemic that hit Indonesia in 2020, which resulted in teaching and learning activities being shifted to online or online and students not

being allowed to enter the classroom, let alone visit the library. In 2022, when learning activities have become optimal, and students have been allowed to study at school, the number of library visits has increased from the previous year.

As an educational institution under the auspices of the Ali Maksum Krapyak Yogyakarta Foundation, which we all know that the Foundation is based on social religion or, in short, is a boarding school, the students who receive education at Madrasah Tsanawiyah Ali Maksum do not have access to gadgets or the internet. There is only a library as the only source of information they can use to meet their information needs. Will these reasons and the interior design that is undergoing renewal or renovation be able to attract them to visit, or will it have no effect at all.

This is an attraction for researchers who want to research and examine whether interior design influences student interest in visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta. That is why researchers conducted research to prove this influence and how much interior design influences students' interest in visiting the Beyt Ali Library. Thus, the researcher chose "The Influence of Interior Design on Student Visiting Interest at the MTS Ali Maksum Library Yogyakarta".

## **1.2 Problem Formulation**

Based on the background that has been explained earlier, a problem formulation can be taken:

1. How is the interior design of the Beyt Ali Library of Madrasah Tsanawiyah Ali Maksum Yogyakarta?

2. What is the level of student interest in visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta?
3. Does interior design influence students' interest in visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta?
4. How much does interior design influence students' interest in visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta?

### **1.3 Research Objectives**

The objectives of this study are as follows:

1. To find out how the interior design of the Beyt Ali Library of Madrasah Tsanawiyah Ali Maksum Yogyakarta is.
2. Knowing the level of interest of students visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta.
3. To find out whether interior design influences the interest of students visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta.
4. Knowing how much interior design influences students' interest in visiting the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta.

### **1.4 Research Benefits**

The results of this study are expected to provide the following benefits:

#### **1.4.1 Theoretical Benefits**

This research is expected to contribute scientifically, understanding, and knowledge to advancing library science, especially in the field of interior design, especially in Madrasah Tsanawiyah Ali Maksum Yogyakarta.

#### **1.4.2 Practical Benefits**

This research is expected to be a reference and comparison material in developing further research in the field of interior design and visiting interest for the Madrasah Tsanawiyah Ali Maksum Yogyakarta Library in the development of interior design in the library.

#### **1.5 Hypothesis**

In a study, a hypothesis is usually formulated to provide a temporary answer to the problem to be studied (Machali, 2021, hlm. 53). Based on the formulation of the problem above, the author sets the hypothesis in this study as follows:

Ho: There is no influence between the interior design of the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta on students' interest.

Ha: There is an influence between the interior design of the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta on students' interest.

Researchers took one of the hypotheses to be tested in this study, namely Ha: There is an influence between the interior design of the Beyt Ali Library Madrasah Tsanawiyah Ali Maksum Yogyakarta on students' interest.

#### **1.6 Writing Systematics**

The systematics of writing in this study can be described as follows:

**CHAPTER I INTRODUCTION.** This section contains the background, problem formulation, objectives, and benefits of the research and systematics of writing.

**CHAPTER II LITERATURE REVIEW AND THEORETICAL FOUNDATIONS.** This chapter focuses on the materials of the previous research literature with relevant topics and information. The theoretical foundation contains the theoretical theory that the author uses to strengthen the research.

**CHAPTER III RESEARCH METHODS.** This chapter explains the type of research used, the place and time of the research, the subject and object of the research, the population and samples, the research instrument, the data source, the data collection technique, the research variables, the validity and reliability test, and the data analysis.

**Chapter IV Results and Discussion.** This section contains an overview of the research location and the results of data analysis.

**Chapter V Conclusion.** This section contains the conclusion and suggestions.

## CHAPTER V

### CONCLUSION

#### 5.1 Conclusion

Based on the research that has been conducted on the influence of interior design on students' interest in visiting the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library Yogyakarta, the results can be concluded as follows:

1. Users' perception of interior design based on the results of the grand mean calculation with a value of 2.92 is included in the good category. The calculation was obtained from 5 elements of interior design, which were described in 23 statements, with the following details: the space sub-variable got a mean value of 2.85, classified as good. The coloring sub-variable received a mean value of 3.16, classified as good; the lighting sub-variable received a mean value of 3.07, classified as good; the air circulation sub-variable received a mean value of 2.85, classified as good; and finally, the sub-variable of the acoustic system received a mean value of 2.79 classified as good. However, even though the user's perception of interior design as a whole is in the good category, there is one statement that gets a bad category, namely in the sub-variable of space in the indicator of the principles of the establishment of the statement room number 4 "There is a special locker for storing goods in the Beyt Ali Library" with a mean result of 2.26. There is one indicator that gets a bad score, namely the acoustic system indicator, which when compared to the indicator, has the lowest mean value.

2. The level of interest in visiting users at the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library in Yogyakarta based on the results of the mean calculation got a score of 3.14 which is included in the good category. However, in the indicator of environmental conditions, statement number 27 received the lowest score when compared to other statements, which was 2,88. But the score is still in the good category.
3. The influence of interior design on the interest of visitors to the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library in Yogyakarta has a probability value or significance of 0.000. So, the hypothesis Ha "there is an influence between the interior design of the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library on the interest of students to visit" can be accepted.
4. The influence of interior design on the interest of visitors at the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library has a determination coefficient value of 0,628 or 62.8%, which indicates that the influence of interior design on the interest of visitors at the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library is moderate.

## 5.2 Advice

Based on the research that has been carried out and looking at the results obtained, there are several suggestions that the researcher will give to the Beyt Ali Madrasah Tsanawiyah Ali Maksum Library, which are as follows:

1. From the results of the research and data processing, the results of the score in the sub-variable section of the indicator room of the principles of the establishment of the statement room number 4 "there is a special locker for

the storage of goods in the Beyt Ali Library" was obtained with an average interval of 2.26 which was included in the poor category. For this reason, it is hoped that Madrasah Tsanawiyah Ali Maksum Yogyakarta will be able to improve management in terms of space aspects such as adding locker facilities for storing goods so that it can reach a very good level.

2. From the results of research and data processing, the score results in the interior design variable, the acoustic system sub-variable got a relatively good average interval, but when compared to other sub-variables, the value was the lowest. For this reason, it is hoped that the Beyt Ali Madrasah Tsanawiyah Ali Maksum Yogyakarta Library will be able to improve the management in terms of the acoustic system so that it can reach a very good level.
3. From the results of the research and data processing, the results of the score in the variable of interest in visiting, the sub-variable of environmental conditions obtained a relatively good average interval, but when compared to other sub-variables, the value was the lowest. For this reason, it is hoped that the Beyt Ali Madrasah Tsanawiyah Ali Maksum Yogyakarta Library will be able to improve its management in terms of its environmental conditions so that it can reach a very good level.
